

1. For each list of numbers, calculate the mean, median and sample standard deviation.
  - a) 9, 9, 10, 10, 10, 12
  
  
  
  
  
  - b) 7, 8, 10, 11, 11, 13
  
2. For each list of numbers, calculate the mean, median and sample standard deviation.
  - a) 1, 3, 4, 5, 7
  
  
  
  
  
  - b) 6, 8, 9, 10, 12
  
- c) How are the lists in this exercise related to each other? How does that property carry over to the mean, median and sd?

1. For each list of numbers, calculate the mean, median and sample standard deviation.
  - a) 9, 9, 10, 10, 10, 12
  
  
  
  
  
  - b) 7, 8, 10, 11, 11, 13
  
2. For each list of numbers, calculate the mean, median and sample standard deviation.
  - a) 1, 3, 4, 5, 7
  
  
  
  
  
  - b) 6, 8, 9, 10, 12
  
- c) How are the lists in this exercise related to each other? How does that property carry over to the mean, median and sd?

3. Repeat exercise 2 for the following two lists.

a) 1, 3, 4, 5, 7

b) 3, 9, 12, 15, 21

3. Repeat exercise 2 for the following two lists.

a) 1, 3, 4, 5, 7

b) 3, 9, 12, 15, 21
