

1 page 111. For the figure at right, write down the  $x$  and  $y$ -coordinates of each point.

2. Write down the equation of the line through A and C.

3. Write down the equation of the line through A and E.

4. Sketch the line  $4y = x + 7$ .

3. Write down the equation of the line through A and E.

4. Sketch the line  $4y = x + 7$ .

#10 p. 106. A large, representative sample of Americans was studied by the Public Health Service in the Health and Nutrition Examination Survey (HANES2). The percentage of respondents who were left-handed decreased steadily with age, from 10% at 20 years to 4% at 70.

a) Sketch a possible histogram of the data.

b) “The data show that many people change from left-handed to right-handed as they get older.” True or false? Why? If false, how do you explain the pattern in the data?

#3 p. 105. A personality test is administered to a large group of subjects. Five scores are shown below, in original units and standard units. Fill in the blanks.

79	64	52	72	_____
1.8	0.8	_____	_____	−1.4
